

AN INFRASTRUCTURE CONSORTIUM COMPANY

INTRODUCTION

Hi End Group is a multi-faceted organization that includes consulting, with established track records of carrying out works ranging from town planning and civil/structural engineering consultancy to development/ construction and civil works in innovative retail, commercial, industrial and residential properties for institutional and private investors.

The company is managed by a team which includes personnel experienced in consulting and town planner professionals who are committed to realising the objectives of investors, clients and possible partners.

FOUNDATION OF STRENGTH

Since being officially established in 2015, Hi End Group has become a potentially growing Civil engineering and Built environment orientated company.

The company is aimed at expanding from the development of free standing buildings to the development of business parks, industrial and commercial nodes, houses in residential estates, and also the construction of public sector structure such as: Medical centres, Schools, Correctional services and rehabilitation centres.

The company's success is underpinned by our unwavering commitment to quality and our insight into national market trends and designs.

AREAS OF EXPERTISE

- Architectural
- Project Management
- Urban Design
- Town Planning
- Civil Engineering
- Structural Engineering
- Traffic Engineering
- Mechanical Engineering
- Electrical Engineering
- Environmental Management
- Quantity Surveying

WEALTH OF EXPERIENCE:

Our expertise and ability to perform these functions is based on the longstanding experience, technical skill and vision of our team of qualified, skilled, experienced and visionary professionals work with carefully selected consultants to manage the risks associated with changing market conditions.

The development and project management systems are of a practical, results orientated nature and focus on the key development criteria for successful developments. Our wide range of projects all bear testimony to our pursuit of excellence and our commitment to achieving a quality product at a cost effective price within defined time parameters.

CORE VALUES:

Hi End Group's strong values and code of ethics ensure that the company has a solid base for future growth. Hi End Group continues to foster longstanding partnerships within the industry and prides itself on a culture of accountability, responsibility and maximising opportunity for the ultimate benefit of all stakeholders.

VISION:

To further establish our position in the consulting sector as a reliable, innovative leader with a particular focus on accountability and quality. To deliver a comprehensive range of services and solutions in an energetic, relentlessly changing business milieu To identify opportunities that will deliver value to the company, our clients, employees and partners.

To adapt and conform to market trends, evolving lifestyles and investor demands. To ensure the sustainability of our business through progression planning as well as our development through thoroughness and unwavering quality.

The background image shows a large, arched tunnel under construction. In the foreground, there are concrete walls and a series of tracks or conduits running along the length of the tunnel. A worker wearing a red safety vest, blue pants, and yellow boots is standing on a platform on the right side of the tunnel, looking towards the far end. The lighting is dim, with some artificial lights visible on the walls and ceiling. The overall tone is industrial and focused on infrastructure development.

ATTITUDE:

To conduct our business with truthfulness and transparency. To implement methods and structures that promote the company's core values . To supply sustainable assets to investors and owner occupiers in an environment that is conducive to the establishment of long term, mutually beneficial business relationships.

To keep it simple

A dark red diagonal stripe runs from the top-left corner to the bottom-right corner of the page.

**COMPLETED
PROJECTS**

2015 - 2016

Year :2015	
Description	Bendor park residential construction
Services Rendered	Civil and Structural Engineering
Employer	Manna Architectures
Contact Person	Mfanelo Khoza : 072 540 7881
Cost of Works	R 4 956 256.56
Fees Obtained	R 298 589.64
Completion date	January 2016

Year :2015	
Description	Renovations of Caltex Garage Botlokwa
Services Rendered	Civil and Structural Engineering
Employer	Manna Architectures
Contact Person	Mfanelo Khoza : 072 540 7881

Completion date	December 2020

A modern office interior featuring a long wooden table, several orange upholstered chairs, and a potted plant with large green leaves. The scene is brightly lit, likely from a window in the background. A semi-transparent white rectangular box is overlaid in the center of the image, containing text.

THINGS TO MENTION
